ANLAMI BOZAN CÜMLE

1. - 10. sorularda, cümleler sırasıyla okunduğunda parçanın anlam bütünlüğünü bozan cümleyi bulunuz.

1. (I) The most important idea of the nineteenth century was that everyone had the right to personal freedom. (II) This idea had spread widely through the book written by Adam Smith in the 18th century. (III) According to the publication, fewer laws meant more freedom and freedom for individuals would lead to happiness. (IV) Several capitalist economists argued that government should not interfere in trade. (V) Such ideas were eagerly accepted by the growing middle class.

A) I B) II C) III D) IV E) V

2. (I) Deficiencies of vitamins are classified as either primary or secondary. (II) A primary deficiency occurs when you do not get enough of the vitamin in the food you eat. (III) A secondary deficiency may be due to an underlying disorder that prevents or limits the absorption or use of the vitamin, due to a "lifestyle factor", such as smoking or excessive alcohol consumption. (IV) The use of such medications is of great importance. (V) Individuals who eat a varied diet are unlikely to develop a severe primary vitamin deficiency.

A) I B) II C) III D) IV E) V

3. (I) No matter where you are, you can immediately connect with children. (II) That is, you never need a translator with kids. (III) They all love to play, although in many cultures they work hard to help earn a living for their families. (IV) But whether they're cleaning shrimp with their mothers in Bombay or playing baseball in Hawaii, family love is, at heart, the same everywhere. (V) It's usually the father figure who is dominant in a family regardless of the financial status of him.

A) I B) II C) III D) IV E) V

4. (I) Every second the sun releases 200 trillion tiny particles called neutrinos that pass virtually undetected through Earth and everything on it. (II) The particles can reveal information about the sun, the nature of dark matter and the large scale structure of the universe. (III) First, they must be captured if the information should be gained. (IV) About 20 times a day, a passing neutrino crashes into a neutron in this dark sphere. (V) Scientists do this at the Sudbury Neutrino Observatory, 6.800 feet beneath Ontario, Canada.
